-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 24 March 2006.  
 2a) This action is FINAL.                    2b) This action is non-final.  
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

1. It would be of great assistance to the Office if all incoming papers pertaining to a filed application carried the following items:

1. Application number (checked for accuracy, including series code and serial no.).
2. Group art unit number (copied from most recent Office communication).
3. Filing date.
4. Name of the examiner who prepared the most recent Office action.
5. Title of invention.
6. Confirmation number (See MPEP § 503).

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 12-13,15-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12 is unclear as written.

In claim 13, "the digital adapter" lack clear antecedent basis.

In claim 15, "the successive bytes" lack clear antecedent basis

In claim 16, "the communication system" lack clear antecedent basis.

### ***Claim Objections***

4. Claim 6 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim 6 cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claim 6 is not been further treated on the merits.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Steinka et al. (5,134,611)

7. Steinka discloses a communication system for communicating digital information, the communication system comprising: a digital adapter ((2")); linked to a digital exchange (3") by means of digital interface; an analog adapter (4"); linked to analog exchange (3") by means of analog interface. The exchange being linked by means of telecommunication network.. The digital and analog adapter includes means for linking the digital adapter and analog adapter; means for transmitting digital information from digital adapter to analog adapter and vice versa. The communication system further includes a digital transmitter located in the digital adapter and an analog receiver located in the analog adapter.(see fig.2) and col. 4, lines 26 to col.5, line 3 and col. 1, line 50 to col. 2, line 14 and col2, lines 64-68..

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 12-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Ayanoglu et al (5,528625).

Ayanoglu discloses a method for transmission from an analog adapter to a digital adapter in a communication system comprising means for taking a succession of groups of bits from digital information originating from a data source connected to analog adapter system; means for generating a succession of analog signal synchronized to a clock of the digital adapter.(see fig.7) The analog adapter includes means for receiving digital information from the digital adapter at a rate of at least 8000 bits per second(see col. 4, line 55 to col5,line 7) Ayanoglu also discloses an adaptive equalizer (see col.8, lines 45-46; col.9, lines 39-57 and col. 10, lines 25-43).

***Allowable Subject Matter***

9. Claims 3-5,7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

10. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2611

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
